Response to Call For Keglers Good

By BOB STEELE
1121 Fonthill

The officers of the Homeowners Association report that they are well pleased with the growing interest in the several projects confronting the residents. Although last Tuesday's meeting was well attended, there is still room for many more.

Harvey Spelman, organizer of the Seaside Ranchos Homeowners Association, gave an interesting talk on the trials and tribulations of making a success of such an organization. He stressed the necessity of maintaining interest in the association in order to keep it alive.

While the women in the 1200 block on Felbar gave a surprise baby shower for Nancy Norminton, the menfolk congregated at

In the past few months the Gardens and Plaza organization has been fortunate in obtaining some very interesting speakers to bring before its membership. An evening with them is an evening well spent.

Won't you try to make it to the next meeting?

While the women in the 1200 block on Felbar gave a surprise baby shower for Nancy Norminton, the menfolk congregated at

the home of Sonny Osborne to settle the world's problems over a few glasses of bevo. The shower was a grand success but the world is still in a mess.

There is an added Heavenly glow in the eyes of Peggy Laverty of 1321 Cordary. Ken Laverty reports the cause of this glow is seven pounds seven ounces of manhood which arrived April 14.

Helen Amos says that the response to the request for women bowlers was very good. In fact it was so good that she is forming a league of eight teams of five women each.

Mrs. Amos is still interested in forming more teams so if you have called before and found her out, please call again. The number is 3760-W.

More in the line of sports: Bert Belzar of 1219 Felbar is forming of an old man's softball league in connection with the City Recreation Program.

He would like to contact softball players who are 32 years old or older. You don't have to be a professional. The only requirements are that you be at least 32 years old, live in one of our tracts, and sincerely enjoy playing softball.

Open letter to the Recreation Department: Gentlemen: Since when has a 32 year old man been considered an old man?

One more request for sports. These tracts are going to be as sporty as all get out. Now there is a request for tennis players.

A bashful Korumbium resident would like to send out a feeler for men and women tennis players.

This is a request for beginners as well as old hands. If enough people are interested this can become a means of many hours of recreation in a wonderful sport. Please contact me for further particulars.

Last Sunday many of our people were seen at the Nativity Church city wide barbecue in Torrance Park. Among these were the Motts, Moriarty, McVeys, and Schnorrs, the Leemanns, Schnidts and Willmoers and many, many others.

At this barbecue many of our residents had the opportunity to meet for the first time their city Councilmen Nick Drale and Victor Benstead.

Nearly 150 people attended the ground-breaking ceremonies for the new First Christian Church last April 12. As you know this

is the first church to be located within our own area and is a part of the expansion program being carried on by so many Torrance churches.

There are twenty-one churches in Torrance. These churches are expanding rapidly to accommodate the growing population. The fact that one of them is building in our tract is an indication that they have faith that we are a religious people and will support the church of our choice.

Visiting relatives in the Plaza this week is John Brink, John is a Navy fire control man third class and is presently serving aboard the U.S.S. DeHaven. He has recently returned from seven months duty in Korea and is looking forward to a pleasant stay in the U.S. before returning to duty.

HALF ACCEPTED About 5.5 per cent of all men examined for U.S. military service by the selective service system in the past four years were accepted.

3 THS Students Vie for Bank of America Awards

Three students will represent Torrance High School today in Inglewood when a panel of judges will meet to pick four outstanding high school seniors from this zone as zone winners in the Bank of America's annual statewide Achievement Awards program.

Carolyn Edmonds, Patricia Garrison, and Frances Frame, all seniors at Torrance High, will be among the 35 students to be judged from Zone nine which includes the schools of southwest Los Angeles county.

The panel of judges is made up of six civic leaders in this area, and includes Forrest Murock, president of El Camino JC, who is serving as chairman for the second year; and Mrs. Victor Benard, president of Torrance Parent Teacher's Association Council.

To make their selections, the panel of judges will interview the 35 students. The four winners will receive cash awards of between \$100 and \$1,000 each when they are again interviewed on May 21 at Pomona College, by a board of final judges, in competition with winners from all nine zones of Southern California. Los Angeles city schools do not participate in this phase of the program, as they are in a division of their own, with identical awards.

Other members of the panel of zone judges are Benjamin Summerhays, Sr., of Los Angeles, Bishop of Latter Day Saints Church; Ted Carrington, president of the Redondo Beach Chamber of Commerce; Mrs. Lou O'Rourke, city treasurer of Hawthorne, and B. K. Richardson, leader of Inglewood philanthropies and other civic activities.

of public, private and parochial high schools.

The students who will be interviewed Thursday have already won certificates of achievement and gold cups in their own schools under the Achievement Awards rules. They were selected to represent their schools by committees of teachers, who judged them on scholarship leadership, and promise of future success and service to society.

Under the statewide program, Bank of America will award a total of \$35,600 in cash and 5,000 other awards of certificates and cups to outstanding seniors
